

ONLINE LINGUISTIC SUPPORT (OLS)

All registered Erasmus+ students will receive an email with access to the OLS language assessment **before the mobility and after the mobility** (two rounds).

Online Linguistic Support (OLS) is a free online language learning platform designed for Erasmus+ participants. With OLS you can test your current level in **English and take the courses of the language that you use at the host country. Test is compulsory, course is not.**

Access to the platform

After signing the Grant Agreement w BauExchange, you will receive an e-mail to get the log-in information.

The screenshot shows the OLS platform interface for English in the United Kingdom. The header includes the language name 'English', the country 'UNITED KINGDOM', and the mobility period 'DECEMBER 2018 > DECEMBER 2019'. There is a 'START' button for the 'First Language Assessment' and a 'Language Course' section that is locked with a message: 'Please complete your first language assessment before accessing this content.' The 'Final Language Assessment' is also locked with the message: 'Your final assessment is not yet available.'

Your results will not prevent you from taking part in Erasmus+, but will give you access to an OLS language course!

If you get results **lower than B2** in English test, you will automatically get a course license to the language that is spoken in host country. The courses are not obligatory for you to follow.

If you get **C2 at the first language assessment**, you will not have to take a second test.

You may take the courses in the following languages: Bulgarian, Croatian, Czech, Danish, Dutch, English, Finnish, French, German, Greek, Hungarian, Italian, Polish, Portuguese, Romanian, Slovakian, Spanish, Swedish.

***Second OLS test which you are required to complete after mobility is a must!
If you do not complete both tests, 5% of your total grant will be deducted.***
