

HEALTH INSURANCE

Health insurance is a must both for your visa application and grant agreement.

According to the National Agency rules, all students must have pre-mobility insurance. To sign the Grant Agreement, the minimum requirements for the insurance policy to be submitted compulsory are as follows:

For Erasmus+ Traineeship Students;

- The travel health insurance to be made by those participating in the internship mobility must be within the scope of 30.000 Euro.
- Health, accident and personal liability (liability insurance) must also be included in the insurance. The personal liability clause is important because it covers the damages that participations may cause in the workplace where they agreed to do their internship.
- The insurance must be valid in the Schengen Area which means the countries that are related with it.
- The insurance must also cover the entire date range in the acceptance letter.
