

Erasmus+ Traineeship After Mobility Documents

Participants are advised to do their documents (mobility certificate and Learning Agreement After part) in their last week of the traineeship in order to be suitable for the Erasmus+ program. The documents that are mentioned must not be done after the participant comes back to their home country.

1. **Arrival Form (original copy):** The participants need to send this document via email in PDF after arriving to the country where they are planning to do their traineeship. It would be advised to the participants to bring the wet-signature version of the document to our office in their after-mobility period but the scanned version is also acceptable.
2. **Mobility Certificate:** This document is important because it is a proof that the participant was an Erasmus+ participant and did their respected traineeship in another country via this program. Participants can download the document from our website and share it with the place where they are doing their traineeship.
3. **Learning Agreement:** After Mobility part of this document should be done in the last week of the traineeship and must be filled completely. The signature of the responsible person and the stamp is required for the document.
4. **EU Survey:** EU Survey will be assigned to the participants in their after-mobility period from BAU Exchange Office.
5. **Passport:** Participants should bring their passports with them when coming to the BAU Exchange office.

Important Note: Participants are responsible for their documents in the after-mobility period and these documents are important for their Erasmus+ program. These documents will be checked by the responsible person in the BAU Exchange Office. In addition, if the participants are grant winners, these documents will be checked and then %30 grant of their total grant will be given to the participants.
